## Admission to Ph.D. Programme

Online and offline applications are invited from eligible candidates for the admission in Ph.D. programme for the academic year 2025-26

### Research areas

Inter-disciplinary, application oriented in the cutting edge areas of Chemistry, Biosciences (such as Biotechnology, Microbiology, Zoology, Botany & Biochemistry), Chemical and Biochemical Engineering, Mechanical Engineering, Computer Science & Engineering, Information Technology, Electrical engineering, Management and Pharmacy with a goal to enrich the human and environmental life. *electronics & communication.*

### Selection Process

All Candidates with minimum 55% in a relevant area of Master's degree are encouraged to apply, shortlisted candidates will be called for IU Ph.D. Entrance Test (IUPET) and only candidates qualifying in written test will be requested to appear for a final interview.

NET-JRF qualified candidates (CSIR/UGC/ICMR/ICAR/GATE/DBT/DST INSPIRE) will be exempted from the written test and will be required to appear directly for the interview. Candidates with valid fellowship from other equivalent state and national level fellowships are also encouraged to apply. Only shortlisted candidates will be called for an interview for selection. No TA/DA will be provided to candidates for appearing in the interview.
