ABOUT INDRASHIL UNIVERSITY

Indrashil University (IU) is an educational initiative of Cadila Pharmaceuticals Ltd. It is established by an Act of State Legislature of Gujarat as a State Private University under Gujarat University Act, 2009. Indrashil University shall be a first of its kind University in the state of Gujarat offering courses in Life Sciences with focus on academic and professional development. It is being developed with a clear vision to provide the best quality of education in the field of Life Sciences and its allied sectors and to be a World Class Research University. The University shall cater to a wide variety of prospective students through full time degree courses as well as various short term programmes. Indrashil University shall not be limited to only life sciences programmes but follow a multidisciplinary approach and offer a wide array of programmes.

ABOUT SCHOOL OF ENGINEERING (SoE)

The School of Engineering at Indrashil University will offer degree programs at the undergraduate and doctoral levels, with an extensive range of specializations to choose from. These programs are designed in a manner where the focus is to inculcate multifaceted skills in a student. They learn to develop analytical and entrepreneurial skills with an interest in research and experimental abilities, which will help them, gain an advantage among their peers in the industry.

ABOUT PROGRAM

Today's education system in India could learn much from its ancient predecessors, which placed great importance on vocational training and on teaching each student according to their aptitude and ability. Too many of today's college graduates find their skills and knowledge are out of step with those needed in the modern workplace. Digital technology and e-learning could offer a way to break this stalemate, to tackle the inconsistencies and inequalities in our system and to transform our country into a true knowledge economy. In context of national level, e-learning acts as a great facilitator for teachers as well as students.

This seminar aims to serve as a platform to educate the participant about the importance of E-learning in present education system. It also aims to bring innovation required in E-learning so that it can become more effective tool in present education system.

SPEAKERS

Dr. Shyam Chawda
Director,
Aspiration Programming Institute

Mr. Nirav Patel
CEO and Data Analyst,
BSP Technology
